About Us

MANTRAMINDS is an engineering and leadership talent search firm driven by innovative recruitment methods to deliver exceptional talent. Our team comes with a rich experience in the technology and staffing area. We always work towards being a trusted partner for our Clients by understanding their business requirements and help them to staff their projects with Best-in-Class engineering talent.

Our Core Values

Trust

We always believe in creating a partnership based on Trust. This is our foremost value

Integrity

We follow the highest ethical standards and take ownership for what we do

Transparency

We are responsible and believe in clear communication with our clients

Dependability

We focus on say-do ratio. We always strive to honor our commitments to our clients

Customer Centric

We always put the customer first at all times and are passionate about meeting their needs

What's Makes us Different

Razor Sharp Focus

Our focused efforts in talent pooling and sourcing helps in building a strong candidate base for our client future hires

Tapping the Right Talent

We use various recruitment methodologies to source deep into the skill base, which helps us to connect right talent with employers who want to hire the best

Experts at What We Do

We spend time to make our consultants subject market experts through various in-house training programs, industry events and insights into latest trends and news

How Can We Help You?

Eyes for Diversity and Leadership Hiring

We employ our experiential know-how to maintain an active database of diverse and top-talent across the technology spectrum

Leverage Off-Market Talent Network

Our consultants are constantly tapping into the passive market through online and offline platforms. This ensures that all your requirements are met in the least possible time frame

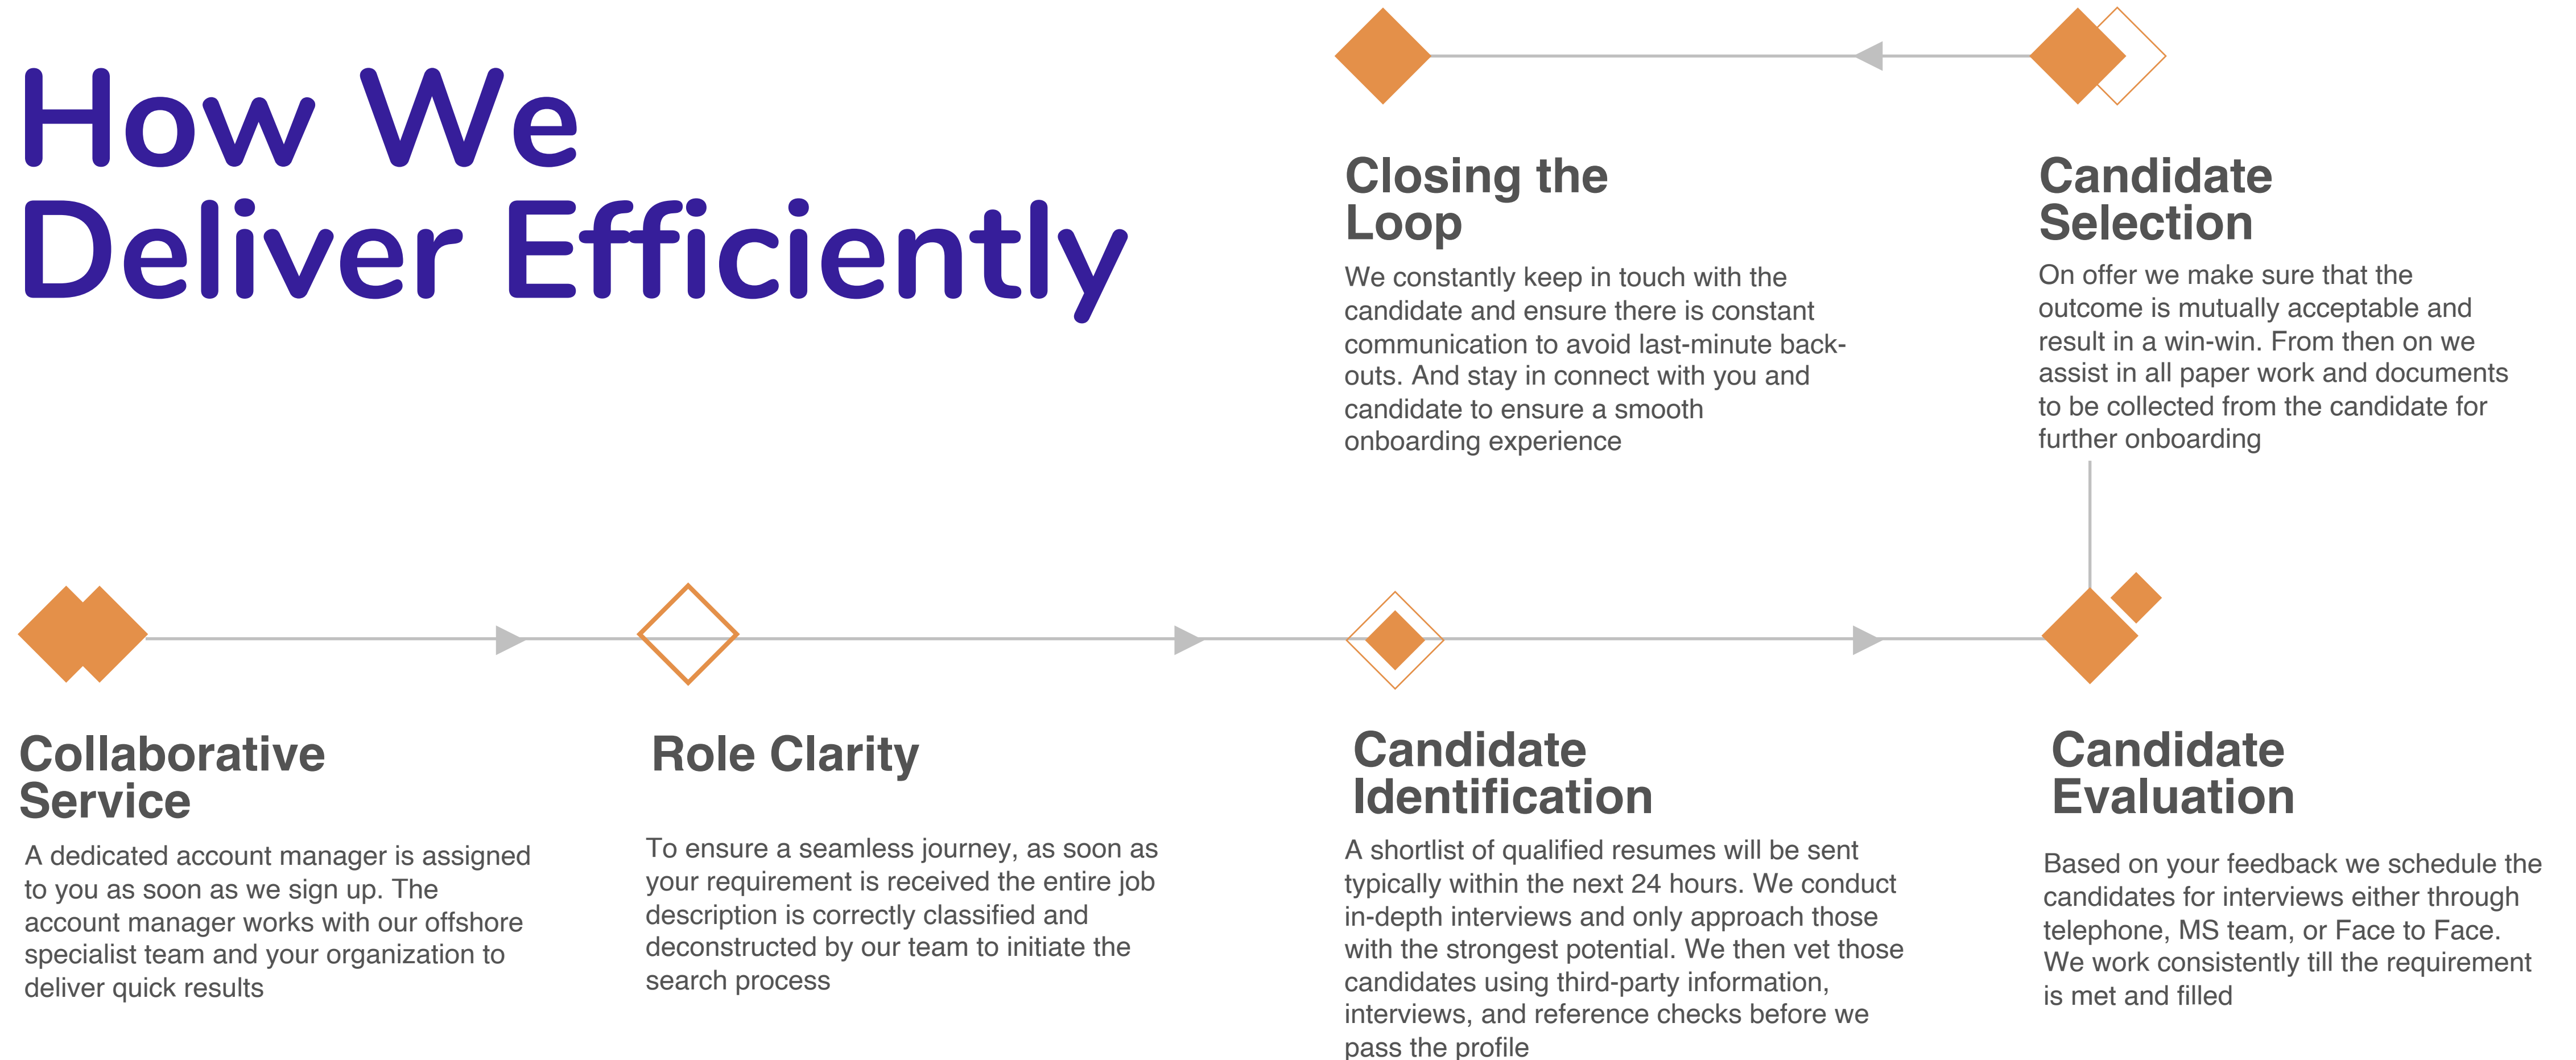

Ensure Profile Match to Actual Experience

We provide 100% pre-qualified profiles and end-to-end validation, guaranteeing support from sourcing to closure

Deep Dive from Recruiter to Brand Ambassador

Apart from sourcing, our consultants are constantly using all marketing techniques to connect with the top talent and work as your brand ambassadors to give you the best

How We Deliver Efficiently

Our Team

KK Vijayakumar Business Head &COO

30 years of experience in IT Consulting & Services spanning across start-ups to large corporates. He brings in very diverse experience spanning across Delivery & Operational Excellence, Technology capability building and Workforce management. In his last role, he was Global Delivery Head for Banking Americas, delivering more than \$600 Mn revenue and managed a team of 6000+ global workforce.

Kavitha Co-Founder & Director

15 years of experience as a Human resource professional, worked for a large corporate, and then went on to build a successful boutique staffing firm that worked with product companies in niche and challenging technology skills. As the Co-founder of MantraMinds and director, she brings in market intelligence combined with HR knowledge to build successful client and business relationships.

Sangeetha Practise Head – Big Data & AI

10 Years of experience as Human resource professional specializing in talent acquisition and employee relations across levels. With both corporate and consulting experience she has successfully worked in highly challenging and competitive environments to build resilient and result driven teams.

Girish Practise Head - Salesforce

Has 20 years of experience in corporate relationship management specialized in building scalable start-ups. With Immense experience in geo specific recruitment and handling large technical hiring specialist teams he manages end to end of delivery to ensure a successful client candidate connect.

Mary Practise Head – Full Stack

13+ years of rich experience in Talent Acquisition - End-End Recruitment Process, Client Management, Team Building & Delivery Management. She is specialized in hiring Middle & Senior level professionals across technologies & domains. Brings rich expertise in handling recruitment assignments for large corporates and building start-ups
